Enhance User Experience
Evora ServiceNow Custom App Dev

Create Intuitive Experiences

With Evora's Custom Application Development (App Dev) expertise on the ServiceNow platform, our team is able to build powerful digital workflow apps that connect people, processes, and systems in a fraction of the time that would be needed for traditional app dev. By leveraging ServiceNow's low- and no-code platform, Evora quickly delivers cross-enterprise apps that scale with your business and create an experience users will love.

The Evora Advantage

Build Apps Fast

Low- and no-code creators can reuse modular, turnkey components built by Evora's pro developers in a shared environment.

Deliver Great User Experiences

Evora provides mobile-enabled, multichannel experiences that allow for user-centric intelligent self-service and quick access to the right info.

Safely Scale Apps

Evora turns business processes into powerful digital workflows that connect systems, apps, and data with complete end-to-end visibility.

Greater Efficiency at Lower Cost

230% return on investment

9 months to see payback on app development

50-74% increase in efficiency of end users when performing workflow tasks

$2.1M cost savings in three years from decommissioning legacy software and apps

*on average, according to a study by Forrester

65%

of all app dev activity by 2024 will be on low-code platforms.

*according to Gartner

> " I'm grateful to get the opportunity of being the product owner of this challenging and amazing innovation project… to leverage new technologies and drive digital initiatives and projects. "
