

## Vamos España! Evora joins Spanish market, founding new subsidiary

### **International provider of IT services and software for maintenance and service of asset intensive industries Evora IT Solutions expands to south-west Europe.**

Walldorf, October 27, 2022 – Today, Evora IT Solutions announced the foundation of Evora IT Solutions, S.L. located in Zaragoza, Spain. The managing director of the new location is Alfonso Lacerda who was appointed with effect from October 1<sup>st</sup>, 2022.

After founding Evora Austria in 2019, Germany-based Evora Group now expands to another European country. Not only is Spain a very attractive new revenue market for Evora, but the expansion also carries the potential to expand towards South America. With the global team of 250+ employees from Germany, Austria, USA, Canada, Brazil, and India, Evora is executing challenging software projects at both national and international levels, digitizing maintenance and service processes.

“Founding Evora Spain is a strategic move for us and will strengthen the position of Evora in the global market,” explains Florian Ganz, Managing Director of Evora IT Solutions Group. “Having access to the talent pool in Spanish-speaking countries will further support the ongoing growth of the Evora Group. We also have plans to invest in Spain as an additional global delivery center for software implementation projects and Application Management Services. Finally, it supports our growth ambitions in South America which are currently driven by our team in Brazil.”

The managing director of Evora Spain, Alfonso Lacerda, brings a mix of 20+ years extensive experience in the SAP consulting industry, business process improvement, and entrepreneurship to Evora IT Solutions. He has worked for leading technology multinationals, including Dell Services, and has run his own consulting company. Lacerda states, “Evora is an extraordinary company, with innovative products, a team atmosphere, and an incredible passionate community.” He continues, “Evora can transform the way people understand not only the mobility processes but their whole service and maintenance world. And starting already with a team of three experienced consultants, we can now deliver value-added innovative solutions for customers in Spain and globally.”

#### About Evora

Evora IT Solutions is an international software and IT service provider focused on maintenance management and customer service. For more than 10 years, Evora has been a trusted partner for utilities, chemicals, pharmaceuticals & life sciences, transportation, public services & education, mining, oil & gas, and manufacturing industry customers. Utilizing technology from SAP and ServiceNow, Evora provides integrated enterprise asset management, field service, planning & scheduling, and mobile solutions that delight users. Evora’s offerings include strategic consulting, solution implementation, software development, quality assurance services, system integrations based on standard components and products, as well as support and application management. Evora is part of the Allgeier group, one of the leading European experts in the digital transformation of business models and mission-critical processes.
