

SAP Principal Consultant

Evora IT Solutions, Americas

Who We Are:

Evora IT Solutions is an international software manufacturer & IT service provider. We are a trusted partner for innovative digital maintenance and service solutions for global and regional customers in North America, Europe, Asia & Pacific. Based on the cutting-edge technologies of SAP and ServiceNow, we implement integrated asset management, field service management, planning & scheduling, and mobile solutions.

We are seeking an SAP Utilities Principal Consultant to lead the delivery and execution of SAP projects for customers. This role uses in-depth knowledge of SAP best practices, utilities industry standards and systems expertise to guide client implementations. You will work closely with our clients, developers, and other stakeholders to define requirements, design solutions, architecture and implement SAP based solutions for Utilities including CR&B, EAM, Mobility & Scheduling.

Who We Are Looking For:

- Lead the delivery and execution of SAP projects for customers, using best practices, ensuring on-time and on-budget delivery and customer satisfaction.
- Participate in presales activities with customers to support for potential SAP opportunities. Provide input into creating detailed Statements of Work
- Lead workshops as the subject matter expert for utility-specific business processes
- Create and maintain project documentation, including Business Process Documents (BPD's), and Functional Specifications for SAP Plant Maintenance / Work Management / Mobility / Scheduling processes based on business requirements.
- Perform Functional Unit Testing for developed FRICEW objects and work with onshore and offshore developers to resolve defects.
- Analyze end-to-end complex business processes and information needs for multiple business areas
- Provide Incident Response and end user support.

What You Bring:

- At least 5 years of utilities industry, technology, and services experience
- Functional knowledge of SAP ISU / CR&B implementations. Configuration experience preferred.
- Experience in integration of Plant Maintenance (PM) with SAP Financial Accounting (FI), Project Systems (PS), Sales & Distribution (SD), and Materials Management (MM)
- Bachelor's degree in technical area preferred
- Strong planning/management/problem solving/leadership ability
- Integration with 3rd party mobile & scheduling applications (ClickSchedule, SAP Work Manager, SAP Service & Asset Manager, ClickMobile, Click FSE, etc) preferred.
- Strong planning, management, problem solving, and leadership ability
- Experience transforming business requirements into project scope and deliverables.
- Ability to prioritize and coordinate multiple work streams in a constantly changing work environment
- Excellent written and verbal communication skills

What We Offer:

- Training & Development Programs (Learning Credits Available for Certifications)
- Competitive Paid Time Off Benefits
- Competitive Salary & Incentive Compensation Program
- Healthcare Plan (Medical, Dental & Vision)
- 401(k) with Employer Match
- Ongoing training and professional development opportunities.
- Annual company trips in the United States and Globally
- Sign on equipment bonus for full time employees
- High autonomy with the possibility to implement topics holistically and independently

To apply for this opening, please send an updated resume directly to our Talent Acquisition Manager, Kayla Fjelstul, at kayla.fjelstul@evorait.com.
