

Your Future with SAP Mobility

Is it time to upgrade to SAP Work Manager or migrate to SAP Service and Asset Manager?

Many companies are still realizing the benefits of their investment in SAP Work Manager but are on a version that is no longer covered by SAP mainstream maintenance. Some are also evaluating their future plans, now that SAP Service and Asset Manager is SAP's go forward solution for mobile work management.

Evora has extensive experience with both SAP Work Manager and SAP Service and Asset Manager. We can help ensure that you stay compliant, understand what is required for the future and execute a strategy for success.

Have you already started planning for when mainstream support for Work Manager ends in December 2024?

Is your version of Work Manager still supported? Are you considering an upgrade to the latest version, Work Manager 6.6?

Unsure what is required to maintain your current installation of SAP Work Manager before migrating to SAP Service and Asset Manager?

Need help with the difference between SAP Work Manager and SAP Service and Asset Manager, benefits of migrating, or what is required to transition?

Meet with our experts to understand what is required for an upgrade or migration.

New Features

SAP Work Manager 6.6 has new features and improvements. Evora can help you review if these may be beneficial for you.

Unsure what to do?

The options can be confusing; Evora can provide strategy and advice to plan a path forward.

On prem or in the cloud?

Which option is right for your future with SAP Work Manager.

Evora has a defined methodology for upgrades based on our over 12 years of SAP Work Manager implementation experience. With more than 40 SAP Service and Asset Manager implementations we are also the most experienced SAP partner in that area. Our approach will ensure your upgrade will be smooth, efficient and successful.

Customers using SAP Inventory Manager and SAP Service Manager and are also facing the same questions. Evora can help upgrade or migrate to the SAP Service and Asset Manager, implementing Inventory Clerk resp. Service Manager persona.
